

SYMPOSIUM OF THE DE LUCA FOUNDATION ON

MOTOR CONTROL IN SPEECH, VOICE & SWALLOWING

 2019 July 2

 9:00 AM - 4:00 PM

 Beijing Tongren Hospital
Capital Medical University
Beijing, China

INVITED SPEAKERS

Dr. Jing Yang
Capital Medical University
China

Mr. Fei-fan Wang
The University of Hong Kong
Hong Kong

Prof. Edwin Yiu
The University of Hong Kong
Hong Kong

Ms. Jenny Vojtech
Boston University & Delsys/Altec Inc.
USA

Prof. Wen Xu
Capital Medical University
China

Dr. Wei Pengxu
National Research Center for Rehabilitation Technical Aids
China

SYMPOSIUM OF THE DE LUCA FOUNDATION ON

MOTOR CONTROL IN SPEECH, VOICE & SWALLOWING

WITH THE SUPPORT OF THE ISB WORKING GROUP IN MOTOR CONTROL

TALK

Surface EMG measurements for different voice tasks:
A preliminary study

Surface EMG characteristics of patients with functional dysphonia

dEMG analysis in speech and voice

Predicting optimal facial EMG control of communication devices for
individuals with motor speech disorders

Multi-modal control and predictive communication interfaces

SPEAKER

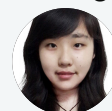

Mr. Fei-fan Wang

Prof. Edwin Yiu

Dr. Jing Yang

Prof. Wen Xu

Dr. Wei Pengxu

Ms. Jenny Vojtech

Who Should Attend: Researchers and students with an interest in Motor Control, Speech Research, Voice and Swallowing Disorders should attend. Participants will have the opportunity to discover the latest developments in these fields and discuss with experienced investigators.

Registration and Fee: Participation is free. For registration, please visit delucafoundation.org/symposium-on-motor-control-in-speech-voice-and-swallowing

With the support of MCG: The Motor Control Group was founded in 2013 to provide a forum to highlight and foster the increased interest in scientific work that bridges the fields of Motor Control and Biomechanics.
